In response to the Appeal Brief of 6/12/06, the finality of the Final Rejection has been withdrawn and the following non-final rejection is applied.

Applicant's election without traverse of species I of Group I in the reply filed on 10/20/05 is acknowledged. Claims 5, 8, 13 stand withdrawn from further consideration pursuant to 37 CFR 1.142(b) as being drawn to a nonelected species and invention, there being no allowable generic or linking claim. Election was made **without** traverse in the reply filed on 10/20/05.

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 1 and 9 are rejected under 35 U.S.C. § 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claim 1 and 9 recite the limitation "the magnetic tape ". There is insufficient antecedent basis for this limitation in the claim.

All claims should be revised carefully to correct all other deficiencies similar to the ones noted above. The non-elected claims should also be similarly corrected at the same time so that the application can be allowed without delay should the generic claims become allowable.

The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

Claims 1, 2, 4, 6, 7, 9, 10 and 14 are rejected under 35 U.S.C. 102(b) as being anticipated by Nemeth et al (US-6364232). The securing mechanism reads on the structures which position and retain the guide member 56 on the hub and includes the slots in the flanges and the tape wraps. The second position of claims 4 and 7 reads on the position of the guide member not fully on the hub. The biasing member of claim 6 reads on the tape wraps which also secure the guide member with respect to the hub.

Claims 3, 11, and 12 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

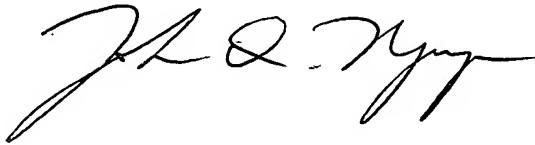

Applicant's arguments with respect to claim 1 and 9 have been considered but are moot in view of the new ground(s) of rejection.
